## PRO DEALS FOR NZSIA INSTRUCTORS

### **Level Three Certification** (Snowsports instructors)

Upon presentation of the Level Three Certification and a letter stating current employment at a New Zealand snow area, a Level Three instructor qualifies for 50% off the retail price for hardware.

### **Level Two Certification** (Snowsports instructors)

Upon presentation of the Level Two Certification and a letter confirming current employment at a New Zealand snow area, a Level Two instructor qualifies for 30% off the retail price for hardware.

#### *Conditions apply*

*The NZSIF cannot impose this as an enforceable right for employed NZSIA instructors. Some wholesalers and some retailers may elect not to follow the policy. Some models and sizes of popular well-selling equipment may be in short supply for the season causing reluctance to sell those at a discount. Retailers most likely will verify first if any gear desired by an instructor is available for discounted supply by the wholesaler, and if not, then it is not available (even if a model sits in the rack).*
